Global Market Profile: High Yield Pulp (HYP) April 2019

Contents

Demand

Annual BCTMP demand (split hardwood and softwood) by grade and region 2007-2017

Major end uses by region

Some History

World BCTMP supply (split hardwood and softwood) by region

World BCTMP supply by supplier (including FSC, PEFC, other certifications)

Future potential new supply

Pricing

China prices and pricing practices and patterns

Importance and risks of China market dependency

Estimated cash costs by mill

Long-term Demand Outlook

Paper permanency standard

Positive megatrends

Opportunity in tissue/toweling

High-quality Folding Boxboard for consumer products still main demand driver

Some ideas to Enhance Market Acceptance of BCTMP

Net-price forecasts (hardwood and softwood) for China through 2030

Appendix 1: Bulk – BCTMP's main advantage

Appendix 2: The New International Standard (ISO 20494) on Paper Stability:
Implications for Mechanical and High-yield Pulp Producers

Appendix 3: BCTMP Supplier Profiles
